It seemed to betoken a turning over of opinion on the part of a larger number of professional speculators to the view that for some cause or other, which, if not clearly understood, was yet making its power abundantly apparent and prices were moving in a steady and sustained way to higher levels.

Doubtless, observers of the class described were impressed more than by any Rock Island com other fact by the obvious circumstance that the floating supply of stocks in the market had become very considerably reduced, and that efforts to buy any large quantity of stock, even in an active issue, compelled higher bids therefor. Other Good Reports,

In addition to the extraordinary annual report of the Pennsylvania made public yesterday there came to-day the exhibits of the Louisville and Nashville, Reading, Pre-Erie, Chesapeake and Ohio, and Norfolk and Western roads, and these were all such as to beget a feeling on the part of hose who read them that commercial and I ecantile affairs in the United States were after all in a, pretty sound state.

It was rumored to-day that the pamphlet report of the United States Steel Corporation for last year soon to be published would be of surprisingly favorable character and that particularly the item of cash surplus now in the hands of the Am. Tobacco 4s ... corporation would be found to be very Am.

## Dollars and Sense Usually go hand in hand. The man who has the most sense

is almost always the man who looks after the dollars most closely. It takes sense to make money and it takes sense to save it. If you are only making small money, but have sense enough to save a portion of it, you are better off than the man that makes big money but spends it all. We pay 3% Interest on Savings Accounts.
